BRADD

No. 037
July 15, 2014

Windows XP Compatibility

The next release of PennDOT's Bridge Automated Design and Drafting Software (BRADD), Version 3.2.1.0, is scheduled to occur in late September 2014.

Due to Microsoft dropping support of security updates for Windows XP (effective April 8, 2014), both PennDOT and the BRADD Maintenance Contractor no longer maintain or support Windows XP workstations. As a result, BRADD version 3.2.1.0 will only be tested and supported on Windows 7, 8 and 8.1 workstations, and the support for the installation and running of BRADD version 3.2.0.0 or earlier versions on Windows XP will be discontinued when BRADD version 3.2.1.0 is released.
