Release of Version 3.3.1.0

Consultants and others with a license can obtain BRADD Version 3.3.1.0 by paying the update license fee indicated in the table below. Use the Update Form located in the Ordering/Updating section on the PennDOT BRADD Software website at <http://bradd.engrprograms.com/>.

Note: Costs shown will require 6% sales tax if applicable (See ordering/update forms). State and Federal Agencies receiving free software and upgrades are limited to a signed license agreement with standard terms.

Download Tip: Microsoft Defender SmartScreen may display a notice when downloading newly released versions of BRADD. This occurs because Microsoft's reputation-based system requires time to accumulate enough download history for a new installer file. If Microsoft Edge blocks the download, click the drop-down arrow next to the Delete button and select Keep, then choose Keep anyway to complete the download. Once downloaded, the installer can run normally.

Consultants and others without a license can obtain BRADD Version 3.3.1.0 by paying the license fee indicated in the table above. Use the Ordering Form located in the Ordering/Updating section on the PennDOT BRADD Software website at <http://bradd.engrprograms.com/>.
